

What our young people said about the Main Church sanctuary and the entrance

When asked these questions – What do you Like? Dislike / wish we had?

This is what they said:

When we walk in, in we don't understand what the wooden (screen) thing means.

Where is Jesus?

What tells us God loves us?

Could there be hearts and stars on the walls?

Make the meeting House more welcoming – have the toys out.

Cushions?

More banners – we like them

Can we sit where we can see each other?

Art on the walls

Don't make the church like other buildings – we like that it feels special.

History of the building is important

It is too cold....

Service could be broadcast into the hall if congregation is too large.

The pews make it formal

The screen is hard to see without glasses.

The organ is loud

We need to have a place where people can bring in prams with baby in it.

The glass at the back feels like a fish tank

The entrance is cold and shut off from the rest of the building

Heaters under the seats can be good for warming feet but get too hot – dangerous

Building looks like a setting for a horror movie.

I like the arched doorway – makes it look like a church

We need new carpet

The Meeting House is a good place for children so it should not look like a dumping ground.

Meeting House is a good place to be able watch and learn about worship.
